

Invitation to Participate in  
National Immunization Day against Polio & Rotary Work Project - INDIA  
February 4 through 23, 2010

### Be a hands-on Rotarian.

Join PDG Elias Thomas III of  
Rotary District 7780 Maine USA for this unique opportunity.

We will participate in a **National Immunization Day**  
when literally millions of children in India receive the vaccine against polio.  
Our **ROTARY DREAM TEAM – INDIA 2010** will also serve as part of the labor force  
constructing a “catch dam”, in order to harvest water from the monsoons  
and provide up to five remote villages in the state of Rajasthan with water  
for potential 50% increase in crop production.

We will be working with Rotarians from the Rotary Club of Delhi-Megapolis,  
as well as Rotarians from several different countries.

In addition, we will also leave a few days for seeing some of the wonders of India,  
Including the TAJ MAHAL and the “pink city” of Jaipur.

If YOU, or anyone you know, would be interested in obtaining more information,  
please contact Elias with questions.
